

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

COMMUNICATIONS FROM STATE OFFICERS.

The following communication from Lawton T. Hemans, Chairman of the Railroad Commission, was received and read:

Mason, Michigan, April 1, 1915.

To the Honorable, the Speaker and the House of Representatives:

Gentlemen:—I am in receipt of a copy of a resolution adopted by your honorable body on the 24th day of March, requesting my individual expression of censure or approbation of certain alleged statements of another member of the Michigan Railroad Commission.

It is with the very highest respect for the request of the House, expressed through its resolution, that I feel compelled to reply that in my opinion, the Michigan Railroad Commission should voice its determinations only through its official utterances and that I should not therefore give official form to my individual opinions or express my sentiments of approval or dissent concerning the personal conduct or statements of my associates on said Commission.

Respectfully submitted,

LAWTON T. HEMANS,

Chairman Michigan Railroad Commission.

The following communication from the Attorney General was received and read:

Attorney General's Department,

Lansing, April 1, 1915.

Hon. Charles S. Pierce, Clerk, House of Representatives, Lansing, Michigan.

Dear Sir:—You have recently submitted to this department a resolution passed by the House of Representatives requesting an opinion from this department as to whether or not the present Legislature can reapportion the State into representative districts.

Section 4 of article 5 of the Constitution of this State provides as follows:

"At the session in nineteen hundred thirteen, and each tenth year thereafter, the Legislature shall by law rearrange the senatorial districts and apportion anew the Representatives among the counties and townships according to the number of inhabitants, using for the basis of such apportionment, the last preceding United States census of this State. Each apportionment so made and the division of any county into representative districts by its board of supervisors made thereunder shall not be altered until the tenth year thereafter."

The 1913 Legislature, by Act 336 of the Session of 1913, attempted to apportion anew the Representatives in the State Legislature among the several counties and districts of the State in accordance with the terms of the Constitution, but in the case of *Stevens v. Secretary of State*, decided July 22, 1914, the apportionment act of 1913 was declared unconstitutional, and the present Legislature was elected and is constituted under Act 244 of the Public Acts of 1905, that being the last valid apportionment act.

The act of 1913 being an invalid act, the Legislature not having passed a valid apportionment in 1913 would not be precluded in my judgment from passing a valid act at the present session. In other words, the Legislature had the power under the section of the Constitution above quoted to pass a reapportionment act at the session of 1913. Having failed to exhaust that power by a valid apportionment act, I am of the opinion that the power still vests in the Legislature to act and reapportion the State at the present session.

Respectfully yours,

GRANT FELLOWS,
Attorney General.

MOTIONS AND RESOLUTIONS.

Mr. Ashley offered the following resolution:

House resolution No. 46.

Whereas, There have appeared in the Legislative halls and in the city of Lansing today numerous persons who have been identified as former Michigan lawmakers, some of them even making public confession of such former status by the wearing of white ribbons bearing the slogan "Boys of '05;" and

Whereas, It has thus become the privilege of the present House of Representatives to show former lawmakers the simon-pure 1915 brand of legislating, so that they will have an opportunity to keep completely up-to-date; and

Whereas, It always is the aim of members of the present House to aid ex-members, through kindly courtesy, to forget as far as possible that they are "ex's;" therefore, be it

Resolved, That the House of Representatives extend its greetings to the members of the all-Republican Legislature of 1905 who are visiting the Capital city to hold a decennial reunion and banquet; and be it further

Resolved, That we extend to them the courtesies of the House while they are with us.

REPORTS OF SELECT COMMITTEES.

To the Honorable the Legislature of the State of Michigan:

Acting under authority of the following Senate concurrent resolution
No. 13:

Whereas, Certain statements have been and are now being circulated in and about the Capitol charging that there has been improper conduct on the part of the representatives of the railroads of this State who are asking this Legislature for the enactment of a law authorizing increases in railroad passenger rates, and

Whereas, There have been presented to the public of this State through the medium of the press, statements of a similar character intimating, if not directly charging, the said railroad representatives with the corrupt use of money and other illegal and improper means in furthering such rate legislation, and

Whereas, In an issue of the Grand Rapids Herald of March 19, 1915, there appears an article, apparently based upon interviews with certain members of the House of Representatives, in which article, after characterizing certain attorneys of the railroad companies as "lobbyists," the following language is used:

"These lobbyists have threatened some bills unless those who stood sponsor for them came around the railroad side of thinking. They have attempted to engender opposition to various bills in order to bring over those who stood behind them. Every means possible is said to have been used to bring the Legislature to the side of the railroads," and

Whereas, By the following language used in said article, viz.: "We would like to know, for instance, if the railroads did raise a \$300,000.00 slush fund for the purpose of putting this fare bill through the Legislature, as has been rumored repeatedly around Lansing," it is intimated, if not directly charged, that the railroad companies are making improper use of money in an attempt to bring about favorable legislation, and

Whereas, In recent speeches made upon the floor of the House serious charges, by implication, were made against certain members of the Railroad Commission with reference to railroad legislation, and

Whereas, Every such statement and insinuation is a direct affront and reflection upon the integrity of this Legislature as a whole and each individual member thereof, and

Whereas, In justice to this honorable body, its individual members, the people of the State, State officers, the representatives of the railroads of this State, and all others whose names have become involved in this matter, it is imperative that there should be an immediate investigation to determine the truth or falsity of the aforementioned statements and rumors and the source or sources from which they emanate; therefore, be it

Resolved by the Senate (the House of Representatives concurring), That the President of the Senate appoint forthwith a committee of five members of the Senate to act jointly with a similar committee to be appointed by the Speaker of the House, and which committee shall investigate in detail the activities and conduct of all those persons who have been and are supporting or opposing the proposed railroad legislation, for the purpose of determining whether or not improper or unlawful methods have been employed to influence the conduct of any member of the Legislature or any State officer.

Said committee is also directed to investigate the truth or falsity of the newspaper statements hereinbefore quoted and if the same shall be found false, the source or sources from which the same emanated, and

to investigate such other matters as to this committee may seem appropriate and necessary to enable this committee to make a full, complete and accurate report thereon and to report not later than April first.

Resolved, further, That said committee be and it is hereby authorized and empowered to require and enforce the attendance of witnesses and to administer oath and to employ counsel, stenographers, clerks and such other employes as may be necessary for the purpose of the investigation, the expense of the same to be paid out of the general funds of the State upon vouchers signed by the chairman and the secretary of said committee.

The members of the Legislature so selected by the President of the Senate and the Speaker of the House met and elected as chairman of such committee, Senator James A. Murtha, and as secretary, Representative M. L. Evens.

The members of your committee keenly recognized the responsibilities placed upon them by the concurrent resolution, and approached their duties with a determination to probe to the very bottom all matters which might be brought before them during the course of their investigation.

There were six sessions held by your committee, at which the following persons gave testimony concerning the issues involved in this Legislative enquiry: Frank M. Sparks, Representative Charles D. Symonds, Representative Merlin Wiley, C. S. McElwain, Gurd M. Hayes, H. N. Duff, Henry H. Tinkham, A. H. Kudner, John Fitzgibbon, Fred Perry, William L. Calnon, Ray Derham, Charles Fox, H. A. Ballenger, James S. Hitchcock, Representative Charles Foote, Alvin J. Meyer, Douglas D. Martin, Edwin C. Shields, C. S. Cunningham, Coleman C. Vaughan, W. W. Walker, A. W. Towsley, Charles E. Webb, W. G. Halstead, William S. Thompson, Cassius L. Glasgow, Paul King, Luren D. Dickinson, Grant Fellows, O. B. Fuller, John W. Haarer, Augustus C. Carton and Fred L. Keeler.

In securing evidence during the progress of their investigation, the generally understood and usually accepted rules governing the introduction and reception of testimony in the trial of causes in court, were not adhered to, as your committee were unanimously of the belief that the greatest latitude should be allowed in the examination of witnesses; for it was the sense of your committee that the acceptance of heresay evidence might tend to establish something illuminating, from which light could be obtained regarding the published statements and utterances in connection with matters set forth in the concurrent resolution.

It was the purpose and aim of your committee to learn from those called as witnesses whether the railroads of Michigan had contributed to a fund to be used in bringing about favorable consideration of the requests of said railroads for authority to charge a higher passenger rate of fare than that which now exists.

The testimony shows that the sum of \$10,401.60 was contributed by the railroads of this State, exclusive of the Pere Marquette, and that this sum was used in a perfectly legitimate manner by the agents and representatives of said railroads.

In this connection, we wish to call attention to the testimony of Mr. A. W. Towsley, vice-president of the Ann Arbor railroad, who, at the command of your committee, prepared a statement showing the amounts

contributed and the sums expended by the railroads of Michigan in the matter of their request for increased railroad passenger fares pending before this Legislature.

It is the opinion of your committee that the method followed by the railroads in gathering together this money, as well as the system pursued by them in disbursing it, are reasonable and proper and not subject to any condemnation. There has been absolutely no proof presented to us that any attorney, agent or representative of the railroads of Michigan, has either himself or through any other person, used money improperly, or influenced or attempted to influence, legislation, for the railroads, or has endeavored in any manner to interfere with other legislation at this session in an effort to bring support to the cause of the railroads.

We deem it proper at this juncture to record that it was claimed that some of our higher State officials gave out certain interviews in

which they expressed their opinions concerning passenger rate legislation. This knowledge was communicated to us by Mr. C. S. McElwain, who gave testimony before us and described himself and was designated by his employers as "advertising representative" of a newspaper published in Michigan.

All of the said State officials from whom interviews were obtained by Mr. McElwain denied that they were informed or had any means of knowing at the time said interviews were given by them, and also before the publication of same, that said interviews were to be used as advertising matter in an attempt to justify the demands of the railroads for a higher passenger rate of fare. Mr. McElwain unreservedly corroborated the testimony given by the said State officials in this respect. While the propriety of these personal opinions emanating as they did from our State officials, may be open to some very slight objection, still we cannot, and do not, find that any opinion which has been expressed by any public official of this State regarding railroad passenger rates, was inspired by any motive or controlled by any desire other than one of absolute honesty of purpose and purity of motive.

It seems to us that it must be conceded that the article which appeared in the Grand Rapids Herald of the issue of March 19, of this year, dealing with pending passenger rate legislation brought to a head insidious suggestions, hasty conclusions, wild rumors and veiled insinuations concerning the activities of the representatives of the railroads during this session of the Legislature.

While there is a conflict in the testimony regarding the source of the rumors recited in the Grand Rapids Herald, your committee has been unable, from the evidence presented, to arrive at a solution of the misunderstanding, but we are of the opinion that no serious charges were contemplated by those upon whose conversation said article was based.

A great deal of comment has followed the statement made by Railroad Commissioner Charles S. Cunningham, favoring an increase in passenger rate fares. It cannot be contended from the testimony received by your committee, concerning the giving of this statement by Commissioner Cunningham, that he knew the same was to be used by any person as advertising matter. He testified, with positiveness, that in the statement as originally given by him, he remembered having said that he was "not" talking as a public official, and that although the statement as published did not contain the word "not," he insists that this word should have been made a part of his alleged statement, and that its absence from the statement as subsequently issued was not his fault, but an error on the part of those who, without his knowledge, commercialized his personal opinion.

The implications recited in the concurrent resolution were serious in their nature, and, if true, presented such a demoralizing condition of affairs in Michigan, which could only be met by the most drastic of remedies, because said charges implied an effort on the part of some persons to resort to improper methods, questionable motives and corrupt practices to secure or retard legislation.

The legislative, executive and judicial functions of our government should be far removed from even the slightest suspicion as to their capacity, intelligence, thoughtfulness and honesty, and while it seems un-

deniably true that those who are elevated to positions of public trust by the people must necessarily expect to be the objects of unjust and hasty, vicious and mandacious criticism, yet, if sinister rumors and unfounded statements are permitted to pass without notice, by the public official against whom, and particularly the legislative body concerning which, they are uttered not only the public servant but the State as well suffers.

It is for the welfare of the whole people that such rumors and statements, whether spoken or written, true or false, should receive prompt official recognition and honest, exhaustive investigation.

While it is true that this investigation has developed absolutely nothing in the way of proof of improper activity on the part of any person interested in proposed railroad legislation, either for or against such measures, yet we believe that this investigation is fully justified by the following conclusions:

(a) That there has been no improper conduct on the part of the representatives of railroads of this State, who are asking this Legislature for the enactment of a law authorizing increases in railroad passenger rates;

(b) That there exists no ground upon which to base the slightest suspicion that any attorney, agent or representative of the railroads of Michigan, has made corrupt use of money and other illegal and improper means in furthering said rate legislation;

(c) That neither lobbyists nor any other persons have threatened any bills which have been introduced in the Legislature, during this session, unless those who stood sponsor for them came around to the support of the railroads, in the efforts of said railroads to secure increases in railroad passenger rates; nor have the lobbyists, attorneys, agents or representatives of the railroads engendered opposition to various bills in order to bring over those who stood behind them to assist the railroads in their efforts to obtain increases in passenger rates:

(d) That there never has existed any so-called "slush fund" or publicity fund for three hundred thousand dollars or one hundred thousand dollars, for the purpose of putting the fare bill through the Legislature, but that there has been expended by the railroads, including all unpaid accounts, the sum of \$15,283.33, of which \$6,409.60 has been spent for publicity purposes, and the balance for salaries and traveling expenses of an attorney, stenographers and other clerical hire;

(e) That upon the evidence presented to us, no unfavorable criticism can be heaped upon Representative Charles D. Symonds, Representative Merlin Wiley, Mr. Frank M. Sparks, the special correspondent of the Grand Rapids Herald, or any State official of Michigan, for his connection with this matter, growing out of the application of the railroads of this State for increases in passenger rate fares.

We attach hereto and make part of this, our report, the testimony taken by us at the different hearings before your committee, the minutes

of the secretary of the committee, and the various exhibits received by the committee.

All of which is respectfully submitted.

Whereas, Owing to the rapidly increasing population of the State, and especially in the larger cities thereof, there now exists, and will continue to increase, conditions in the "tenement house" and other housing problems which now, or eventually will require correction by legislative action; and

Whereas, Housing evils are of so manifold a nature and have so many manifestations that it is apparent that many things must be done before right conditions can be achieved, and

Whereas, Housing is as much a problem for legislative attention as the subject of pure food, labor conditions, etc., and the methods to be employed in securing the right kind of housing for the people of any community differ in no essential respect from the methods to be followed in providing statutory regulation of like conditions; therefore be it

Resolved by the Senate (the House of Representatives concurring), That the Governor is hereby respectfully requested to appoint a commission, consisting of not more than five members to serve without compensation, which commission shall thoroughly investigate housing conditions within this State and prepare for legislative enactment a comprehensive housing code, which code, together with the report of said commission shall be submitted to the Legislature at its session in nineteen hundred seventeen.

COMMUNICATIONS FROM STATE OFFICERS.

The Speaker laid before the House a communication from Augustus C. Carton, secretary of the Public Domain Commission, in response to House resolution No. 15.

Pending the reading of the communication,

Mr. Follett moved that the introduction to the report, together with the recommendations at the close of the report, be spread upon the Journal, and that the report in full be printed in pamphlet form for the use of the House of Representatives.

The motion prevailed.

The introductory paragraph of the report, and the recommendations at the close, are as follows:

Hon. C. W. Smith, Speaker, House of Representatives, Lansing, Michigan:

Sir:—In compliance with House concurrent resolution No. 15, requesting the secretary of the Public Domain Commission to take immediate steps to ascertain the commercial possibilities of dried potatoes, or potato flour, in the domestic and foreign market, and the utilization of the pulp driers in the beet sugar and chicory factories to the benefit of Michigan industries, and make a report to the Legislature of his findings, I have the honor to submit the following report as secretary of the Public Domain Commission.

In concluding this report I would say:

First, That the Michigan potato is a valuable asset and contains food values that would warrant its being dried and manufactured into flour;

Second, That it is feasible to use the dryers at present used in the Michigan beet sugar and chicory factories for the drying of potatoes, if hard coal is used;

Third, That the demand for dried potatoes and potato flour would be sufficient to warrant the factories in utilizing their dryers for this purpose;

Fourth, It seems that this can be done and a fair price paid to the farmer;

Fifth, The foodstuffs with which dried potatoes would have to compete in order to be used in very large quantities are beans and wheat flour.

I am somewhat surprised that a State like Michigan, which stands in the fore ranks as a producer of potatoes, has not given some attention both to the drying of potatoes and the developing of a market for this product. Our whole effort seems to have been along the line of a greater production, which in one way is very commendable, but which on the other hand is very disastrous unless provision is made for the utilization of this larger production.

I hope I may be excused for the digression if I say a few words on the grading and marketing situation in the Wolverine State. As far as potatoes, apples and some other things are concerned, the absence of any organization for their grading, and of adequate facilities for their marketing, might almost be termed criminal. We do not seem to realize that there should be no overproduction, when there are thousands of people in this country who do not know where they are going to get their dinner today nor their breakfast tomorrow morning. A situation that will permit a waste of \$2,000,000 worth of a valuable foodstuff, such as the potatoes in this State, while thousands of people are hungry and other thousands are paying a high price for the products, is not a desirable one.

A larger production does not in all cases mean an increase of wealth in the community. It is a loss unless proper provisions are made whereby this larger production can be turned to the profit of the producer. If, on our \$10,000,000 potato crop this year the farmer will suffer a loss of \$2,000,000 on account of lack of a market, on twice this production or a \$20,000,000 crop the farmer would have a loss of \$12,000,000 and on a \$30,000,000 crop he would have a loss of \$22,000,000.

Some adequate arrangement should be made in regard to the marketing of farm products, or a larger production in our rural districts will mean a loss to those districts instead of a gain.

Another matter which should receive attention is that of grading apples, potatoes, and other farm products. The present system of selling apples in what is known as "orchard run" or potatoes as "field run," settles no one's problem. It is a waste to the consumer who desires only first class varieties, and a loss to the consumer whose financial condition is such as to make it advisable for him to buy an article at less cost that would serve his purpose as well.

I think the people of Michigan could learn much in the way of grading and marketing from the fruit-growers of the west, who put their products in packages so that every purchaser will know in advance exactly what he is buying. Even the man with the little fruit stand on the corner knows in advance how many apples there are in the box packed under regulations in one of the western states, and consequently can plan in advance how many apples he can sell for ten cents in order to make the desired profit.

I doubt if any other business in the State would continue long with as little attention paid to grading and marketing as has been paid to the fruit and potato crops. If a shingle manufacturer should put into one package his culls, sound butt, six-inch clear butts, and X X X X shingles, he would not be able to find a market in the United States for his product, and if he did find one, it would be practically at the current price of the lowest grade shingle in the package, which would be the culls. How long would a manufacturer of lumber be able to do business if all grades were put together and the man who wanted a carload of fine common was required to purchase half a carload of shipping culls, mill culls and scoots, for which he would have no use and which would be a waste as far as he was concerned? On the other hand, how would the purchaser be benefited who wanted a carload of shipping culls, which would answer the purpose for which he wanted them as well as the better grades, if he had to pay an additional price because a third of the carload was composed of fine common and better?

Michigan is a great State. She stands well in the fore-ranks as a producer of agricultural products. Her apples are the best grown in the world. The quality of her potatoes is equaled by only one or two States. The future along potato and fruit lines is wonderful if we only solve the grading and marketing proposition. This can be done at but very little expense to the State of Michigan. All it requires is doing, and somebody to do it.

Returning to the subject under investigation, it would seem that the handling of the potato crop by the dryers now in existence would not be impracticable, as the machinery necessary to prepare the potato for the dryer would be somewhat inexpensive, due to the fact that the potato

can be sliced and dried without peeling. When it is dried it is ground into flour, the flour bolted through fine cloth, the same as wheat flour, and the peelings are separated from the flour just as bran is separated from wheat flour. Once potato flour is placed on the market in suitable packages, I am sure the Michigan housewife, as well as housewives all over the United States, will be as desirous of using this product as the imported article from European countries.

In making plans for the drying of potatoes and the manufacturing of the same into flour, let me say that we should plan on operating the factories every year. All potatoes should be graded and all the smaller ones should be shipped to dryers. This would leave the farmer with a high grade of potatoes to place on the market, and in all probability he would get more for his crop with the smaller potatoes absent. If we had had in operation in Michigan last fall dryers that could have utilized the smaller potatoes, we would not have a surplus on hand today. If from a potato crop valued at \$10,000,000, we have a \$2,000,000 surplus, it means that one-fifth of our crop can find no market. Now, if these potatoes had been graded and the one-fifth of small potatoes sent to the dryers, there would have been no surplus in Michigan.

I would recommend that this whole matter be turned over to the State Board of Agriculture with full power to act. I would also recommend that an appropriation of \$5,000 be made to be used in investigation and experimental purposes if necessary. If the appropriation made by the present Legislature is sufficient, I would suggest that this \$5,000 come out of the mill tax going to the Agricultural College; if it is not large enough, I recommend that a special appropriation be made.

The State Board of Agriculture is made up of good business men, and one of the members has control of several pulp dryers, utilized in the drying of pulp from sugar beets. He is an energetic, forcible gentleman who has given some study to the proposition of drying potatoes, and says the pulp dryers of this State can be utilized for this purpose. If this gentleman can not solve the problem of drying and manufacturing potatoes into flour, especially the surplus crop of this year and other years to come, I know of no man in Michigan who is able to do it.

The solving of the problem of utilizing the potato crop in Michigan would mean millions to the State. We could increase our potato production, under favorable conditions, to \$20,000,000. This great amount of money, which would represent an increase in the purchasing power of the rural communities, would eventually find its way into trade channels of the country, through the purchase of the manufactured articles of the city.

The solving of these problems affecting agricultural prosperity today, is one of the big things and is worth the attention of the big men. No individual can render a more valuable service to the State than to be instrumental in working out this problem along such lines as will accrue to the benefit of both the producer and consumer.

All of which is respectfully submitted,

AUGUSTUS C. CARTON,
Secretary Public Domain Commission.

Section 1. Upon the release of right of way and damages or upon the determination and return of the special commissioners or order of the probate court, as the case may be, the county drain commissioner shall make his final order of determination establishing the drain, a certified copy of which order of determination shall be filed with the county clerk within five days after such order is made. He shall include in such order a description of the several tracts or parcels of land to be assessed for benefits in the construction of such drain, which said tracts or parcels shall constitute the special assessment district for that purpose, to be known and designated in such order by the name of the drain. He shall thereupon without delay proceed to divide the route thereof into convenient sections for the letting of the work, and shall mark the depth of cutting on each grade stake, from stake to stake, along the whole length of such drain. He shall also mark on

each section stake the number of each section of division from the lower end of said drain, and the length in feet or rods which each section contains and shall make a diagram corresponding with the divisions so made, and shall file the same with the other papers in his office pertaining to said drain. He shall give not less than ten days' notice of the time and place of letting [which place shall be some point on the right of way of said drain or the most convenient place as near as possible to the right of way of the drain], by serving personal notice upon every person whose lands are affected by such assessment and who resides in the township or townships traversed by said drain, which notice shall be served in the same manner as provided in section 6 of chapter 3 for the personal service of citation, and by posting said notice in five public places in each township traversed by said drain, and by causing notice thereof to be published, not less than two insertions, in one or more newspapers published and of general circulation in the county, which notice of letting must be published once in each week for two consecutive weeks. Such notice shall contain a description of the several tracts or parcels of land constituting the special assessment district of such drain, as above provided, and it shall also state that at the time and place of such letting, or at such other time and place thereafter to which the county drain commissioner may adjourn the same, the assessment for benefits and the lands comprised within the special assessment district shall be subject to review for at least one day; such review shall be held open from nine o'clock in the forenoon until five o'clock in the afternoon. On such reviews the supervisor or commissioner of highways of any township may appear on behalf of such township. At such review the county drain commissioner shall hear the proofs and allegations of all parties interested, and shall carefully reconsider and review the descriptions of land comprised within the special assessment district, the several descriptions assessed and his assessments of benefits, and define and equalize the same as may seem just and equitable.

4. Amend by striking out of chapter 4, section 3, beginning with the word "If" in line 23 down to and including the word "specifications" in line 27 and inserting in lieu thereof the following:

AFTER RECESS.

2:00 o'clock p. m.

The House was called to order by the Speaker.

By unanimous consent

Mr. Ashley offered the following resolution:

House resolution No. 49.

Whereas, Fifty-one years ago this mundane sphere staggered to the advent of another member of the already frequent family of Smith, and

Whereas, All the Smiths, from Pocohontas John to the erudite and competent Charles W., have been identified with the trend of forward and purposeful American thought that has brought this nation to its present eminence as a pushful, orderly, happy and opulent commonwealth, and

Whereas, Though fettered with a cognomen the usuality of which almost obliterates man's heritage of identity, the said Charles W. has, by dint of perseverance, perspicacity and pep, coupled with rugged worth an enduring courage, an unfailing good humor, carved for himself an enviable niche in the affairs of this State and in the abiding regard of his fellowmen, and

Whereas, He enjoys the full confidence, admiration and affection of the members of the legislative body under his direction; therefore, be it

Resolved, That on this, his natal day, the members of the Michigan House of Representatives, his friends, do extend to him the brimming measure of their congratulations and personal regard, their reverence for his virtues, their esteem for his ability, their love for his fine nature,

with the genuine wish that the future may be as rich in achievement as in promise, as worthy of pursuit as the past has been, and that Fortune's ample cheek always shall dimple to his address.

The resolution was unanimously adopted.

The Speaker thanked the members of the House for their expression of friendship and best wishes.

The House resumed the order of

House resolution No. 50.

Whereas, It has come to the attention of the House of Representatives that one of its members, during the last few days, and while the House was in session, did silently slip away to the Elysian fields and did there enter into that state of blessedness usually designated as matrimony; and

Whereas, Such action, being taken without notice to the members of the House, is in plain violation of the provisions of the Constitution and the House rules, as published in the Red Book; therefore, be it

Resolved, That Representative Tom Read of Oceana be conducted forthwith to the bar of the House by the Sergeant-at-arms, there to answer the following questions:

1. Are you guilty or not guilty of the charge hereinbefore made?
2. Why were not the members of the House invited to the festivities?
3. Are you downhearted?

Mr. Read made answer to the questions contained in the resolution, whereupon Mr. Petermann offered the following amendment to the resolution:

Amend by adding the following question:

Which the Senate amended as follows:

By striking out all of the bill after the words "Section 1," line 1 of Section 1, and inserting in lieu thereof the following:

No person, partnership or corporation shall engage in the business of making loans of three hundred dollars or less, upon real and chattel securities of any kind whatsoever, or upon endorsement or guarantee of third person, or upon salaries or wage earnings, or without security, when a higher rate of interest than seven per cent per annum is charged, without first having obtained a license from the clerk of the city in which the business is to be carried on.

Section 2. Any person, partnership, or corporation intending to engage in the business provided for in this act shall make application for a license, in writing and file the same with the clerk of the city in which he desires to do business, which application shall state fully the name or names of the person, partnership or corporation, and every member of the partnership, the street and number and the building and room in which the applicant proposes to do business, and, in the case of a corporation, shall also state the date and place of its incorporation and the name of its statutory agent upon whom process may be served with his address, and shall pay to such clerk at the time of filing such application a license fee of fifty dollars. Such applicant shall also, at the time of filing his application, file with such clerk a bond

to the people of the State of Michigan, in the penal sum of one thousand dollars, executed by the principal and by a surety company authorized to do business in this State, or by two sureties who shall be male residents and freeholders of the city in which such business is proposed to be carried on, and who shall severally depose on oath and in writing attached to said bond that he is worth in real estate situated within the county in which such business is proposed to be carried on, a sum equal to the amount of the bond over and above all indebtedness and exemption from sale on execution; the conditions of such bond shall be that if the principal shall pay any judgment which may be recovered against him in any court of competent jurisdiction and all damages and costs by the borrower resulting from any violation of the provisions of this act; then said obligation to be void, otherwise to remain in full force and effect. Upon filing the application and bond as above required, and upon payment by the applicant of the license fee required, the clerk of the city shall forthwith issue a license to such applicant, for a period of one year, which license shall state fully the name or names of the person, partnership or corporation, and of every member of the partnership, the street and number and the building and room in which the business is to be conducted, and in the case of a corporation, shall also state the date and place of its incorporation, and the name of its statutory agent, upon whom process may be served, with his address. The licensee shall not make any loan or transact any business provided for by this act at any other place than that stated in such license; and such license shall not be transferable to any other person, partnership or corporation; if a change of his place of business is made during his license period, the licensee shall make and file with the clerk an affidavit stating in full the place to which his business has been removed, and thereupon the clerk shall endorse upon the license his consent to such change.

Section 3. Every person, partnership or corporation licensed as herein provided shall give to each borrower a card upon which shall be written in ink, or typewritten, or printed, the name of the person, partnership or corporation, making such loan, the name of the borrower, the amount of the loan, the amount and date of each payment to be made, the amount of expense, charged, exclusive of interest, the time for which such charge is made, the date when the loan is made and the date when payable; and shall also give the borrower a receipt for each payment of principal, interest or any other charge made on the loan, and if any payment shall consist of principal and interest or any other charge, such receipt shall specify the amount of each. Upon the back of such card or immediately attached thereto, shall be printed in English, in type as large as that which the Public Acts of this State are printed, the following words:

"If interest or charges in excess of the amount fixed by the laws of this State are asked or received, this loan is void and of no effect; and the borrower cannot be made to pay back the money loaned, or any interest, or any charges, or any part thereof."

Section 4. No such person, partnership, or corporation so licensed shall receive any assignment of salary or wage in blank, but all blank spaces shall be filled in with ink or typewritten with the proper names and figures, showing the name of the persons, partnership, or corpora-

tion by whom the person making the assignment is employed. If the borrower is married the assignment shall be void unless it contains the signature of the husband or wife, as the case may be, of the borrower.

Section 5. Any person, partnership, or corporation licensed as herein provided may lawfully charge upon any such loan a rate of interest not to exceed three per cent per month where such loan does not exceed the sum of one hundred dollars, and not to exceed two per cent per month where such loan exceeds the sum of one hundred dollars and does not exceed three hundred dollars. In addition to such interest, in any case where a loan is made for a period of not less than four months, a charge may be made for investigation, examination of property, drawing necessary papers, and all other services and expenses of every kind or description, not to exceed one dollar where the amount loaned does not exceed fifty dollars, and not to exceed two dollars where the amount loaned exceeds fifty dollars: Provided, however, That where the loan is made for a period of less than four months, the charge in addition to interest as aforesaid shall not exceed fifty cents where the amount loaned does not exceed fifty dollars; and not to exceed one dollar where the amount loaned does exceed fifty dollars; and any loan of the character herein provided for shall be void and of no binding effect which provides for or contemplates the payment of any amount or sum in excess of the rates of charges herein provided for, or where any provisions of section three (3) of this act has been disregarded or violated.

Interest on any loan shall not be payable in advance, and shall be computed on unpaid monthly balances only, but without compounding of interest.

Licensee shall not be entitled to any examination fee or to make any charge whatsoever unless a loan is actually made.

No person, partnership, or corporation or agent or employe thereof shall make a loan upon real or chattel securities of any kind whatsoever, or upon the indorsement of third persons, or upon the salary or wage earnings of another, or without security, at a rate of interest and charge or receive therefor in excess of the amounts provided for in this act.

Section 6. It shall not be lawful to divide or split up loans under any pretext whatsoever for the purpose of requiring or exacting any other or greater charges than prescribed herein, or to make any such charge for renewals, part renewals or extensions or for any transfers or changes of the loan within four months of the date of the original loan, or oftener than once in each four months thereafter, except in cases where a new and additional sum shall be loaned at the time of such renewal or change at the request of the borrower, in which case the fee above provided may be charged for such additional amount loaned. Any payment or charge in excess of the rate or charge hereby authorized shall operate as a discharge of the principal of the loan, and the borrower shall not be obliged to pay or tender any balance of the principal, interest or charge unpaid.

Section 7. Any person, partnership or corporation, or any agent or employe thereof, violating any of the provisions of this act, or that carries on the business of making loans of the kind herein specified without first obtaining a license as provided in this act, shall be deemed

guilty of a misdemeanor and shall be punished by a fine of not more than one hundred dollars for the first offense, and by a like fine and in the discretion of the court by imprisonment in the county jail not to exceed sixty days for the second and each subsequent offense, and it shall become the duty of any court upon a second conviction for violation of this act, to order the revocation and cancellation of any license theretofore issued to such person, partnership or corporation, and the same shall thereupon become revoked, cancelled and of no further force or effect.

Section 8. This act shall not apply to any person, partnership, or corporation operating or doing business by or under the authority of the laws of this State or of the United States relating to banks, trust companies, building and loan associations or pawnbrokers.

Section 9. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

A message was received from the Senate transmitting Senate concurrent resolution No. 11.

Whereas, There is pending in the National Congress, a bill known as the Hamill bill, "to provide for the retirement of employes in the Civil Service" (H. R. 5139); and

Whereas, The word "pension," through misuse, has come to convey an erroneous impression to the average mind, and it is thought of as something done to take care of the poor and decrepit, of those who have been improvident and who are to be taken care of by kindly disposed people; and

Whereas, A pension is just as much a part of proper compensation as is the monthly salary for those who have given their lives to the service of the government; therefore be it

Resolved by the Senate (the House of Representatives concurring), That the members of Congress from this State be, and they hereby are, respectfully requested to use all honorable means to secure the passage and approval of said Hamill bill (H. R. 5139) or legislation similar to the provisions thereof; and be it further

Resolved, That a copy of this resolution be forwarded to each Senator and Member of the House of Representatives from this State.

And informing the House of Representatives that the Senate had adopted the concurrent resolution.

The question being on concurring in the action of the Senate,
The House concurred.

COMMUNICATIONS FROM STATE OFFICERS.

Mr. Woodruff sent to the Clerk's desk the following communication from the Attorney General which was received and read:

Attorney General's Department Lansing
 April 26th, 1915.

Hon. Ari H. Woodruff, House of Representatives, Capitol.

Dear Mr. Woodruff:—I beg to acknowledge receipt of yours of April 26th in which you ask me for an opinion as to the constitutionality of House bill No. 4 (file No. 38), which is attached to your letter.

Replying to the same will say that from a conference with reference to this bill, I learn that the line at which the connecting waters are fixed to end (in lines 12 and 13 of section 2) is not the actual physical line. In other words, it is my understanding of the matter that the actual physical line is at a different point. Assuming that I am correct in my understanding, I beg to advise you that, in my judgment, the Act would be invalid if enacted into law for the reason that a certain portion of the actual physical connecting waters is omitted from the provisions of this bill and that therefore the bill would not apply to all of the connecting waters of the State but only to a part of them and would, in my judgment, be local legislation within the inhibition of the State Constitution.

Trusting that this will give you the information desired, I remain,

Very respectfully,

GRANT FELLOWS,
 Attorney General.

Mr. Evens demanded the vote of Mr. Hopkins.

Mr. Hopkins voted nay and was so recorded.

Mr. Hopkins, having reserved the right to explain his vote, made the following statement:

The only thing I want to say is that being a new member I don't want to butt in; but it seems to me that 100 men, sent here by the State of Michigan, and having discussed a bill all winter, and voted on it, and sent it over to the Senate, then had it brought back, must be a bunch of boobs to stand up here and change their vote and shift around within fifteen minutes, and for that reason I did not vote for the bill.

Mr. Hinkley, having reserved the right to explain his vote, made the following statement:

This is the first time in my three terms in the Legislature that I have asked for the privilege of explaining my vote, but I want to say at this time that this is the coarsest, rawest proposition that I ever ran into during the three terms I have been here.

Mr. Thomas Read, having reserved the right to explain his vote, made the following statement:

I want to second what Mr. Hinkley has said. I am a first termmer, but this is the coarsest thing I have ever met in the way of legislation.

Pending the announcement of the vote upon the bill,
Mr. Thomas Read demanded the vote of Mr. Amon.
Mr. Amon voted yea and was so recorded.
The House agreed to the title of the bill.

Mr. Ashley having reserved the right to explain his vote sent to the Clerk's desk the following:

I voted "no" on the passage of Senate bill No. 138 for the reason that I do not believe in passing laws by wholesale. This law was never read on either the first, second or third reading, as provided by the Constitution of the State. It makes wholesale changes in the laws, raises salaries, changes fees, and in other ways does things not contemplated when the commission was appointed.

Mr. William F. Jerome, having reserved the right to explain his vote, sent to the Clerk's desk the following:

I voted "no" because I do not understand the nature of all the amendments which have been attached to the bill. Also because the lawyers are about equally divided on the proposition. We have not had sufficient time to consider so important a measure since the amendments have been made.

Mr. Biggerstaff having reserved the right to explain his vote, sent to the Clerk's desk the following:

My reasons for voting "no" on this bill (Senate bill No. 138) are that the amended bill was filed so late that I could not get the views of my constituents, men who I think should understand the bill, and I do not feel that I myself can judge as to its merits without further consideration

Further, that the attorneys, men who should understand the bill, do not agree, and the only thing I have heard, coming from my constituents, has been objections to the bill.

Mr. Jones, having reserved the right to explain his vote, sent to the Clerk's desk the following:

Although the lawyers of the House do not agree on the advisability of passing this bill, I accept the endorsement of the State Bar Association, and the recommendations of the commission appointed by the Governor, and vote for the bill.

Mr. Sheridan Ford, having reserved the right to explain his vote, sent to the Clerk's desk the following:

I voted "yea" on this bill on account of the tender solicitude which the corporation lawyers seemed to have for we laymen. We know the tender solicitude they have for us.

Mr. Culver, having reserved the right to explain his vote, sent to the Clerk's desk the following:

I notice there has been just as much solicitude by the lawyers on one side as there has been on the other. I also had in mind the fact that at the beginning of this session I discovered a number of things in the work done by the commission, of which I did not approve. I discovered that there was no limit to either the pay or the time which the commission could remain in existence. I introduced a bill repealing the act creating the commission. That bill was referred to the Judiciary Committee and put to sleep. The day after I introduced the bill the newspapers stated that the Board of State Auditors had already cut the commission off the pay roll. I was informed last night by the Chairman of the Judiciary Committee that I had been fooled, that they were still on the pay roll. Now I want to call attention to the fact that this commission can go on after the session is over and there is absolutely no reason why the bill should be passed at this time. It is like small boys trading jack knives "unsight and unseen." The commission will undoubtedly continue to draw twenty-five dollars a day, and why not let them take the bill and go through it and perhaps they can get it into some kind of shape by next session.

Mr. Empson moved to reconsider the vote by which the House passed Senate bill No. 138 (file No. 327).

After debate,

Mr. Jones demanded the previous question.

The demand was seconded.

The question being, "Shall the main question be now put?"

The previous question was ordered.

The motion prevailed.

Pending the vote on the passage of the bill,

Mr. DeBoer moved that the House take a recess until 2:00 o'clock p. m.

The motion prevailed.

After debate,

Pending the announcement of the vote upon the bill,

Mr. Flowers demanded the vote of Mr. Place.

Mr. Place voted nay and was so recorded.

The House agreed to the title of the bill.

Mr. Daprato, having reserved the right to explain his vote, sent to the Clerk's desk the following:

In the bill transmitted to the House from the Senate, there was to my knowledge but one amendment of merit i. e. the lowering of exemptions in garnishment to 60% and 30% of the amount due, meritable in that it was designated to protect the righteous, and to facilitate the collection of moneys due from the dishonest. Because I do not approve of the highhanded method of the committee in peremptorily extinguishing this amendment I voted "no."

Mr. Ashley, having reserved the right to explain his vote, sent to the Clerk's desk the following:

I vote "no" on the passage of Senate bill No. 138 for the reason that the bill was read by its title only on the first and second readings and

that the bill was not read on the order of third reading as provided in the constitution.

Mr. William F. Jerome, having reserved the right to explain his vote, sent to the Clerk's desk the following:

I vote "no" for the same objections as before, with the addition that while I am in sympathy with speedy justice, consistent with safety, yet after hearing the debate I am now fully convinced that this bill has been rushed through at the last day, without thorough consideration of many of its provisions, one of which is the jurisdiction of circuit judges in certain cases.

Mr. Oakley moved that further business under the call be dispensed with.

The motion prevailed.

By unanimous consent the House returned to the order of

A bill to amend sections 19, 20, 22, 24, 25, 26, 27, 28, 34, 35 and 36 of Act 281 of the Public Acts of 1909, entitled "An act relative to the nomination of party candidates for public office and delegates to political conventions, to regulate primary elections and to prescribe penalties for violations of its provisions, and to provide for the printing upon election ballots of the names of candidates nominated under the terms of this act. and to repeal Act No. 4 of the Public Acts of the Extra Session of the year 1907, and all local primary election acts contravening the pro-

visions of this act, except as in this act otherwise provided," as amended by Act 279 of the Public Acts of 1911 and Act 118 of the Public Acts of 1913.

And informing the House of Representatives that the Senate had amended the same as follows:

Amend by striking out all of the bill after the word and figure "Section 1" in line 1 of section 1 and inserting in lieu thereof the following:

Sections 24 and 35 of Act No. 281 of the Public Acts of 1909, entitled "An act relative to the nomination of party candidates for public office and delegates to political conventions, to regulate primary elections, and to prescribe penalties for violations of its provisions, and to provide for the printing upon election ballots of the names of candidates nominated under the terms of this act, and to repeal Act No. 4 of the Public Acts of the Extra Session of the year 1907, and all local primary election acts contravening the provisions of this act, except as in this act otherwise provided," as amended by Act 279 of the Public Acts of 1911 and Act 118 of the Public Acts of 1913, are hereby amended to read as follows:

Sec. 24. The official primary election ballots shall be prepared in the following form: At the top of each ballot shall be printed in large type, "Official primary election ballot." Underneath such heading shall be printed the date of the election at which the ballot is to be used, together with a designation of the political subdivision, as county, district, city, ward, et cetera, in which it is to be used. Then shall follow in bold face type, the name of the political party and the vignette, below which shall appear the following instruction to voters: Make a cross in the square to the left of as many names for each office as may be indicated under the title of such office. Under this heading shall appear the names of the candidates seeking nomination for various offices on the ticket of the political party. The order of the offices on the ballot shall be the same, as near as may be, as is required by law in making up the ballot used at general elections. The title of the office shall be immediately above the names of the candidate or candidates for the nomination for such office, and under such title the words "Vote for," followed by the word "one" or "two" or such other word as will designate the number of candidates for the nomination to such office that may be voted for. The names of the different candidates shall be separated from each other by a light-faced rule with a square at the left of each name. The spaces devoted to the candidates for nomination to different offices shall be separated by a black-faced rule so as to separate each office division distinctly. The ballots for each election district shall be numbered consecutively in the manner provided by the general election law. All names of candidates of each political party shall be printed on a separate ballot and said ballot may be in one or more columns as may be determined by the board of election commissioners preparing the same. If two or more columns are used on the ballot, the columns shall be separated by a black line not less than one-twelfth of an inch in width. The names under the heading designating each official position, where there are more names than there are candidates to be nominated for such office,

shall be alternated on the ballot of each party casting not less than ten per centum of the total vote cast in the county or other political subdivision at the preceding November election for the office of Secretary of State. Said names shall be printed on the ballot in the following manner:

The forms shall be set up with the names of the candidates arranged alphabetically according to surnames. In printing each set of ballots for the several election precincts, the relative positions of the different names printed in each division shall be changed as many times as there are candidates in that division having the most names. As nearly as possible an equal number of tickets shall be printed for each change. In making the changes of positions, the printers shall take the line of type at the head of each office division and place it at the bottom of the division and shove up the column so that the name that before was second shall be first after the change. After the ballots are printed and before they are trimmed, they shall be kept in separate piles, one pile for each change in position, and shall then be piled by taking one ballot from each pile and placing it upon the pile to be trimmed in such manner that each alternative ballot shall have the names in a different relative position. Thereupon, the ballots shall be numbered consecutively on the upper right hand corner upon the front of the ballot with a perforated line across said corner and underneath said number so that said corner with the number thereon may be torn off. After the ballots shall be trimmed and done up in sealed packages, they shall be distributed for use at the primary election in the same manner as is now provided by law for the distribution of ballots to be used at general elections. Ballots shall be prepared in substantially the following form:

No.....

or District of the ward of the City of.....

Sec. 35. Each voter after having received his ballot, shall enter a booth and while there concealed from view shall vote such ballot by making a cross in the square at the left of the names of such candidates as he may desire to vote for, but in no case for more candidates for any office than is indicated under the title of such office. He may, however, vote for any person whose name is not printed on the ballot by inserting such name in such manner as shall make it a substitute for any name which is printed thereon or where no candidate's name appears upon the ballot: Provided, That such name substituted is not printed on any other party ballot: Provided further, That no person who is voted for on any party ballot for any State, district, county or city office, whose name is not printed on such ballot, and who has not filed a nomination petition for the office voted for, shall be deemed nominated as the candidate of such party for such office, nor receive a certificate of nomination unless he shall receive a total vote equal to five percentum of the total number of ballots cast by such party at such primary in the State, district, county, or city, as the case may be.

The voter shall then fold the ballot so that the perforated corner bearing the number shall be on the outside, and shall present it to the proper member of the board of inspectors who shall tear off the corner bearing the number and shall deposit the ballot in the ballot box. When a duly registered and qualified voter shall ask for a ballot as before provided, the inspector shall enter his name upon the list, together with the name of the party the ballot of which is requested, and the number of the ballot given to the voter. The inspector receiving the ballot after the same has been voted shall, before depositing it in the box, ascertain by comparison with such list whether the ballot given to him is the same ballot furnished to the voter, and if it is not the same ballot, he shall reject it and the voter shall not be allowed to vote at such primary election. If any voter shall, after marking his ballot, so expose it to any person as to reveal the name of any candidate voted for thereon, the ballot shall be rejected by the board of election inspectors and the voter shall forfeit the right to vote at the primary election. A note of such occurrence shall be made upon the poll list opposite the name of the voter. Challengers who have been duly appointed shall be allowed to be present with like powers to challenge voters as are provided by law in the case of general elections.

And further informing the House of Representatives that the Senate had amended the title of the bill to read as follows:

A bill to amend sections 24 and 35 of Act 281 of the Public Acts of 1909, entitled "An act relative to the nomination of party candidates for public office and delegates to political conventions, to regulate primary elections and to prescribe penalties for violations of its provisions, and to provide for the printing upon election ballots of the names of candidates nominated under the terms of this act, and to repeal Act No. 4 of the Public Acts of the Extra Session of the year 1907, and all local primary election acts contravening the provisions of this act, except as in this act otherwise provided," as amended by Act 279 of the Public Acts of 1911 and Act 118 of the Public Acts of 1913.

And further informing the House of Representatives that, as thus amended, and with the title thus amended, the Senate had passed the bill.

The Speaker announced that under Rule 58, the bill would lie over one day.

Mr. Nank moved that Rule 58 be suspended.

The motion prevailed, two-thirds of all the members present voting therefor.

The following message was received from the Governor:

Executive Office, Lansing,
May 10, 1915.

The Hon. The Speaker, House of Representatives, State House, Lansing.

Sir: I herewith return without approval House bill No. 126, file No. 100, enrolled No. 42.

"A bill to amend section three-a of act number one hundred ninety-three of the Public Acts of eighteen hundred ninety-five, as amended by act number one hundred eighteen of the Public Acts of eighteen hundred ninety-seven, same being compiler's section five thousand one hundred twelve of the Compiled Laws of eighteen hundred ninety-seven, as amended by act number one hundred sixty-two of the Public Acts of nineteen hundred thirteen, entitled "An act to prohibit and prevent adulteration, fraud and deception in the manufacture and sale of articles of food and drink."

I disapprove House enrolled bill No. 42 because it is not in harmony with a law passed by U. S. Congress in March, 1913, requiring that all foods in package form be stamped with the net weight or net measure.

State laws and Federal laws should harmonize. To make this bill a law would cause serious trouble to Michigan fruit growers. The Federal law went into effect September 1, 1914, and was not rigidly enforced last autumn. The Food Department at Washington has informed Michigan's Food Department that the law will hereafter be enforced. I therefore decline to sign House enrolled bill No. 42.

Yours very truly,
WOODBIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding,

The bill was then passed, two-thirds of all the members-elect voting therefor, by yeas and nays, as follows:

Messrs. Amon and Miller entered the House and took their seats.

The following message was received from the Governor:

Executive Office, Lansing.
May 14, 1915.

The Speaker of the House, State House, Lansing.

Sir: I herewith return, without approval, House bill No. 334. (file No. 143), enrolled No. 135.

"A bill to amend sections one, six and twelve of act one hundred thirty-five of the Public Acts of nineteen hundred eleven, entitled 'An act to encourage private forestry, the care and management thereof, and to provide for the exemption from taxation of such private forest reserve,' approved April twenty-five, nineteen hundred eleven."

I disapprove House enrolled bill No. 135 (H. B. No. 334, file No. 143), because of the insertion in section 1, these words: "and any tract of land which is an original forest of standing white pine and Norway pine may be selected by the owner or owners thereof, as a private forest reservation, upon filing a description thereof in the same manner."

This amendment would create private forest reservations of an entirely different character, having no relation to agriculture and without limit as to size. It would, as I take it, enable the owners of every tract of white and Norway pine in the State to make aforesaid tract a private

forest reservation and have it placed upon the assessment roll at the nominal assessment of \$1.00 per acre, regardless of value. The original forests of pine still remaining in Ontonagon and Houghton counties contain more than 100,000,000 feet. There are tracts of considerable size in other Upper Peninsula counties. In the Southern Peninsula also there are a number of tracts of original pine forests. I have in mind one township in Lake county where the assessed valuation of such tracts exceeds \$40,000. The removal of these tracts from assessment at true cash value and the placing them upon the rolls at the nominal value of \$1.00 per acre would seriously affect the tax rolls of many districts.

The bill as presented to the Legislature by the Michigan Tax Commission was constructive and wise. This bill is vicious.

I, therefore, decline to sign this bill.

Yours very truly,
WOODBIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding.

Mr. Schmidt moved that the bill be laid on the table.

The motion prevailed.

The following message was received from the Governor:

Executive Office, Lansing.
May 14, 1915.

The Speaker of the House, State House, Lansing, Michigan.

Dear Sir: I herewith return without approval House bill No. 210, file No. 176, enrolled No. 111.

"A bill to provide for a board of education for cities having a population of two hundred fifty thousand or over and comprising a single school district; to fix their terms of office, and the manner of the nomination and election of the members thereof."

I disapprove House enrolled bill No. 111 (H. B. No. 210, file No. 176), because this bill offers little improvement over the present system. This bill is in reality a seven ward bill controlled by the politicians, the members selected by partisan ballot by district election on a partisan ticket when the voter is struggling with a congested ticket. The plan fosters straight party voting. This bill is not in harmony with the non-partisan plan suggested in my message. In my opinion it is far better to try the Scott law which the Supreme Court has declared constitutional and valid and which will be submitted to the school voters in the fall of 1916. Every school board should be nonpartisan. I therefore decline to sign this bill.

Very truly yours,
WOODBIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding.

The bill was then passed, two-thirds of all the members-elect voting therefor, by yeas and nays, as follows:

The following message was received from the Governor:

Executive Office, Lansing,
May 18, 1915.

The Speaker of the House, State House, Lansing, Michigan.

Dear Sir: I herewith return without approval House bill No. 389, file No. 240, enrolled No. 166.

"A bill to amend section one of act number ten of the Public Acts of eighteen hundred ninety-five, entitled 'An act to establish a board of health for the city of Detroit,' to provide for the appointment of the members thereof by the mayor of said city."

I disapprove House enrolled bill No. 166 (H. B. No. 289, file No. 240), because public health matters should be removed as far as possible from political influence. A governor is quite as likely to observe this fundamental principle as the mayor of a city. The proposed change involves no plea for economy nor any plea for a better handling of health requirements.

I therefore decline to sign this bill.

Very truly yours,
WOODBIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding,

The bill was then passed, two-thirds of all the members-elect voting therefor, by yeas and nays as follows:

The following message was received from the Governor:

May 18, 1915.

The Speaker of the House, State House, Lansing, Michigan.

Dear Sir: I herewith return without my approval, House bill No. 335, file No. 273, enrolled No. 176,

"A bill to establish, protect and enforce by lien the rights of garage keepers who furnish labor or material for storing, repairing, maintaining, keeping or otherwise supplying automobiles or other motor propelled vehicles."

I disapprove House enrolled bill No. 176 (H. B. No. 335, file No. 273), because the bill is too drastic. Average garage men are not sufficiently familiar with the different makes of motor vehicles to properly analyze a defect or fault and make repairs that overcome some of the troubles that happen to a motor vehicle by accident or misuse, or carelessness in operating, consequently the door is open to make unreasonable charges. Why do garage men need more protection than a merchant who is selling implements, wagons, gas engines, etc., which may be returned for repairs or for storage?

I therefore decline to sign this bill.

Very truly yours,
WOODBRIDGE N. FERRIS,
Governor.

The Speaker of the House of Representatives, State House, Lansing, Michigan.

Dear Sir: I herewith return without approval House bill No. 475 file No. 294, enrolled No. 145.

"A bill to amend section fourteen of act number two hundred twenty-two of the Public Acts of nineteen hundred one, entitled "An act relating to plumbing and drainage, and providing for the inspection thereof, and for the examination, regulation, licensing and registration of plumbers, and for the punishment of offenders against this act."

I disapprove House enrolled bill No. 145 (House bill 475 file 294), because the regulations of this bill conflict with the regulations of the board of health. Plumbing and drainage in our cities is of sufficient importance to warrant regulation by the city board of health. I therefore decline to sign this bill.

Mr. Hinkley moved that the bill be ordered to take immediate effect.

The motion prevailed, two-thirds of all the members-elect voting therefor.

A message was received from the Senate returning

House bill No. 96 (file No. 47), entitled

A bill to amend chapter 4 of Act No. 283 of the Public Acts of 1909, entitled "An act to revise, consolidate and add to the laws relating to the establishment, opening, improvement, maintenance and use of the public highways and private roads; the condemnation of property and gravel therefor; the building, repairing and preservation of bridges; setting and protecting shade trees; drainage; cutting weeds and brush

within this State, and providing for the election and defining the powers, duties and compensation of State, county, township and district highway officials," approved June 2, 1909, by adding thereto one new section to stand as section 6a; to provide for decreasing or increasing the membership of boards of county road commissioners in counties operating under the county road system.

And informing the House of Representatives that the Senate had amended the same as follows:

By striking out all of the bill after the enacting clause and inserting in lieu thereof the following:

Section 1. Sec. 17. The county road commissioners shall apportion the per cent of the total cost of construction of such improvement, which the county at large shall be liable to pay by reason of the benefit to the public convenience and welfare, and as a means of improving the highway, and shall apportion the per cent of the cost of the construction of such improvement for the same reasons that any township traversed or benefited thereby shall be liable to pay. They shall also apportion the per cent of benefits to accrue to any piece or parcel of land for the reasons aforesaid, by reason of the construction of such improvement over and above the per cent assessed against the county at large, and against the townships at large aforesaid, which per cent of benefits shall be apportioned upon and assessed against the lands benefited, according to benefits received, and which apportionments they shall announce at the time and place of hearing objections to, and equalizing the apportionment of benefits. Such assessment of per cent for benefits shall thereupon be subject to review and correction, and may be reviewed in the manner herein provided. All appeals in this act provided for, shall be from the apportionment of the per cent of benefits. The county road commissioners shall apportion not less than (twenty-five) per cent nor more than seventy-five per cent of the total cost of the improvement to the road assessment district, and the remainder to the county and townships. The county road commissioners shall designate each assessment district by number, by which number it shall thereafter be known.

MESSAGES FROM THE SENATE.

A message was received from the Senate informing the House of Representatives that the Senate had concurred in the amendments made by the House of Representatives to

Senate bill No. 96 (file No. 69), entitled

A bill making an appropriation for the State Highway Department for the payment of the additional State reward on trunk line highways, the building or repairing of bridges on such highways, making necessary repairs on such highways, and paying the salaries and running expenses incurred under the provisions of Act No. 334 of the Public Acts of 1913, for the fiscal years ending June 30, 1916, and June 30, 1917, and to provide a tax therefor.

And further informing the House of Representatives that the Senate had ordered the bill to take immediate effect.

A message was received from the Senate re-returning

House bill No. 59 (file No. 197), entitled

A bill making appropriations for the Newberry State Hospital at Newberry, for the fiscal years ending June 30, 1916, and June 30, 1917, for building and special purposes, and to provide a tax to meet the same.

And informing the House of Representatives that the Senate had reconsidered the vote by which the Senate agreed to the title of said bill and had agreed to the title amended so as to read as follows:

"A bill making appropriations for the Newberry State Hospital at Newberry, for the fiscal year ending June 30, 1916, for building and special purposes and to provide a tax to meet the same."

The question being on agreeing to the title, as amended by the Senate, The title was agreed to.

The title was referred to the Clerk for enrollment printing and presentation to the Governor.

A message was received from the Senate re-transmitting

Senate bill No. 307 (file No. 253), entitled

A bill to prescribe the duties of the Secretary of the Senate and the

Clerk of the House of Representatives during the interim of sessions of the Legislature, to fix their compensation, and to make an appropriation therefor.

Which was returned by the Governor to the Senate, on May 14, 1915, without having been signed by him and with his objections thereto.

And informing the House of Representatives that the Senate had passed the bill by a vote of two-thirds of all the Senators elect, the objections of the Governor to the contrary notwithstanding, and that the Senate had ordered the bill to take immediate effect.

The message of the Governor to the Senate, stating his objections to the bill, is as follows:

Executive Office, Lansing,
May 14, 1915.

The President of the Senate, State House, Lansing.

Sir: I herewith return, without approval, Senate bill No. 307, file No. 253, enrolled No. 109.

An act to prescribe the duties of the Secretary of the Senate and the Clerk of the House of Representatives during the interim of sessions of the Legislature, to fix their compensation, and to make an appropriation therefor.

I disapprove Senate enrolled No. 109 (S. B. No. 307, file No. 253), because its provisions entail too large an expense for the service rendered. Under existing conditions, the total cost for the Secretary of the Senate and Clerk of the House of Representatives, is for two years approximately \$5,400. This bill involves an expense of over \$10,000 for two years. This bill contains only one important feature: "the revision of the election and registration laws of the State, etc." This could have been provided for in a better way. The State is not suffering for the want of two more well paid officials.

I, therefore, decline to sign this bill.

Yours very truly,
WOODBIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding,

The bill was then passed, two-thirds of all the members-elect voting therefor, by yeas and nays, as follows:

and to form a judicial circuit therefrom to be known as the fortieth judicial circuit, and to provide for the election of a circuit judge therein.

Which was returned by the Governor to the Senate, on May 14, 1915, without having been signed by him, and with his objections thereto.

Executive Office, Lansing,
May 14, 1915.

The President of the Senate, State House, Lansing, Michigan.

Dear Sir: I herewith return without approval Senate bill No. 237, file No. 185, enrolled No. 71.

"A bill to detach the county of Lapeer from the sixth judicial circuit, and to form a judicial circuit therefrom to be known as the fortieth judicial circuit, and to provide for the nomination and election of a circuit judge therein."

I disapprove of this Senate enrolled No. 71 (S. B. No. 237, file No. 185), because I am satisfied that we now have as many judges as the State will require for many years to come, provided the system is arranged for sending them where they are needed and Senate bill No. 141 (enrolled No. 97), which I have already signed makes this provision. This provision (Senate bill enrolled No. 97), is a step in the right direction. It is good business on the part of the State to distribute her workers. Some of our judges are overworked, some of our judges have comparatively little work. Efficiency and common sense commend Senate enrolled No. 97 and at the same time condemn Senate enrolled No. 71. I therefore decline to sign this bill.

Yours very truly,
WOODBRIDGE N. FERRIS,
Governor.

MESSAGES FROM THE GOVERNOR.

The following message was received from the Governor:

Executive Office,
Lansing, May 19, 1915.

The Speaker of the House, State House, Lansing, Michigan:

Dear Sir:—I herewith return without my approval, House bill No. 442, file No. 308, House enrolled No. 161.

“A bill to amend section four of chapter two, and section four of chapter four of act number two hundred fifty-four of the Public Acts of eighteen hundred ninety-seven, as amended by act number sixteen of the Public Acts of nineteen hundred three, entitled “An act to provide

for the construction and maintenance of drains and the assessment and collection of taxes therefor, and to repeal all other laws relative thereto," being sections four thousand three hundred thirteen and four thousand three hundred forty-three of the Compiled Laws of eighteen hundred ninety-seven.

I disapprove of House enrolled No. 161 (House bill No. 442, file No. 308), because while section 4 of chapter II might be applied in certain cases and would be of some little help, it would not be applicable in enough cases to merit its becoming a law.

Section 4, chapter IV, if it became a law, would work more injury to the construction of drains than would be received in benefits. Extensions of time for completing the construction of drains are due to weather conditions or unforeseen conditions of the soil through which drains are established, making it necessary to await the action of nature so that the drain may be finished according to specifications and with a reasonable amount of safety. During rainy seasons in some sections of the State there would be so much water upon the ground that it would be impossible to construct a drain where construction is to be done by hand, or with teams. On such ground, making an extension of the contract for a period considered reasonable might necessitate a further extension if conditions did not improve by the end of the first extension.

On bridge work, extensions of time on contracts are made, believing that the drain or drains will be constructed by a certain time that will permit concrete work to be constructed without danger of frost. If the delay upon the construction goes too near the danger period from frost, then they are forced to grant another extension sometimes carrying over until the winter and well past the frost period in the spring.

Sickness and many other causes make extensions necessary upon a contract.

Drain commissioners have the opportunity to make extensions so long as in their judgment they feel that the work under reasonable conditions will be done well. There is every reason to believe that it will be done much better under these conditions than to have an iron-clad law that forces a commissioner to take action in re-letting a contract when the new conditions were such that it was practically impossible to do the work. Under these circumstances, to re-let the job would work an unjust injury to both contractor and the bondsman.

In a word, under the provisions of this bill, the commissioner would be forced to consider a reasonable extension to be a period of time which in many cases might prove to be unreasonable.

I do not believe that this bill is any improvement over our present law. I therefore decline to sign it.

Yours very truly,
WOODBRIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding,

The bill was then passed, two-thirds of all the members-elect voting therefor, by yeas and nays, as follows:

MESSAGES FROM THE GOVERNOR.

The following message was received from the Governor.

Executive Office, Lansing,

May 20, 1915.

The Speaker of the House of Representatives, State House, Lansing, Michigan.

Dear Sir: I am returning herewith without approval House bill No. 363, file No. 141, enrolled Act No. 170,

"A bill to amend section six of chapter twenty-eight of act number one hundred eighty-three of the Public Acts of eighteen hundred ninety-seven, approved May twenty-nine, eighteen hundred ninety-seven, being an act entitled "An act to provide for the appointment and to fix the term of office, duties and compensation of circuit court stenographers in

the State of Michigan," being compiler's section three hundred sixty-eight of the Compiled Laws of eighteen hundred ninety-seven."

I disapprove House enrolled bill No. 170 (House bill No. 363, file No. 141), because I see no reason why stenographers should be put in a class by themselves because of any disability that may arise. Ordinarily in private employment a reasonable time is allowed for sickness, but if the sickness continues for months (as it may under the terms of this bill) no private employer could submit to it. If stenographers are under-paid, then by all means increase their salary. I can see no good reason why stenographers should receive special consideration involved in this bill.

I therefore decline to sign this bill.

Yours very truly,
WOODBRIDGE N. FERRIS,
Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding.

W^r. Whiteley moved that the bill be laid upon the table.

The motion prevailed.

Mr. Henry moved that the House take a recess until 11:35 o'clock a. m.
The motion prevailed.

AFTER RECESS.

11:35 o'clock a. m.

Executive Office, Lansing,
May 20, 1915.

The Senate, State House, Lansing, Michigan.

Sirs: I am in receipt of a concurrent resolution which has been agreed to by both Houses of the Legislature in relation to a certain bill pertaining to the primary law, asking me to either sign or veto said bill before twelve o'clock May twentieth.

I asked the members of the Legislature to return to Lansing to correct a mistake in Senate bill No. 96 (file No. 69), entitled "A bill making an appropriation for the State Highway Department for the payment of the additional State reward on trunk line highways, etc.," a mistake for which the Legislature was solely responsible. No other reasons were specified in my request. In complying with this request, the Legislature has simply performed a duty that it owed to the State of Michigan.

This morning when the Speaker of the House and the Lieutenant Governor called upon me inquiring as to what my probable action would be in relation to the said primary bill, I answered that the bill is still under consideration. That statement still holds good. The bill is under consideration and I have according to law, until Monday, May twenty-fourth, in which to sign or veto the bill. This right I still reserve. Furthermore, I am informed that the House has already passed a resolution adjourning until Tuesday, May twenty-fifth, and that resolution has gone to the Senate and is still awaiting action.

Very sincerely yours,
WOODBIDGE N. FERRIS,
Governor.

10:00 o'clock a. m.

The House was called to order by the Speaker.

The House took up the order of

MESSAGES FROM THE GOVERNOR.

Executive Office,
Lansing, May 21, 1915.

The Speaker of the House of Representatives, State House, Lansing, Michigan:

Dear Sir:—I herewith return, without approval, House bill No. 112, file No. 25, enrolled No. 185.

"A bill to amend sections twenty-four and thirty-five of act two hundred eighty-one of the Public Acts of nineteen hundred nine, entitled "An act relative to the nomination of party candidates for public office and delegates to political conventions, to regulate primary elections and to prescribe penalties for violations of its provisions, and to provide for the printing upon election ballots of the names of candidates nominated under the terms of this act, and to repeal act number four of the Public Acts of the Extra Session of the year nineteen hundred seven, and all local primary election acts contravening the provisions of this act, except as in this act otherwise provided," as amended by act two hundred seventy-nine of the Public Acts of nineteen hundred eleven and act one hundred eighteen of the Public Acts of nineteen hundred thirteen."

I disapprove House enrolled bill No. 185 (H. B. No. 112, file No. 25) because it is a step backward. By having separate party ballots, the voter must advertise his politics. Secrecy of the ballot is of the utmost importance in a free country, in a country that aims to give to every citizen the right to express his political choice without fear of being penalized.

It puts a limitation of 5 per cent of the total votes cast by a party as a necessity for nomination. This works a hardship to minority party candidates. Minority parties in a democracy are entitled to decent consideration. Powerful political parties always have a tendency to ride rough-shod over minority parties in order to perpetuate and strengthen their reign.

It requires the inspector to enter the name of the voter upon his list together with the name of the party the ballot of which is requested, thus reviving the obnoxious enrollment feature. Under the former enrollment system many self-respecting citizens refused to wear the label of any political party. They preferred to deprive themselves of some of the privileges of citizenship rather than stultify themselves by wearing a tag.

The fundamental feature of the primary is to give the voter the freest possible expression of his will, and this without unnecessary publicity.

The Republican Legislature of 1913 recognized the fundamental rights of the citizens of Michigan and acted accordingly. The Republican Legislature of 1915 repudiates these acts. If the Legislature of 1913 was right, the Legislature of 1915 is wrong.

This bill is reactionary and unjust. It condemns political freedom and puts a premium on cowardice and party despotism.

As already stated, this bill cures no existing evils. On the contrary it reestablishes evils that Michigan citizens have long tried to cure.

I therefore decline to sign this bill.

Yours very truly,

WOODBIDGE N. FERRIS,

Governor.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding,

Messrs. Nank and Thomas Read discussed the provisions of the bill and the Governor's veto thereof.

The bill was then passed, two-thirds of all the members-elect voting therefor, by yeas and nays, as follows:

Mr. Palmer moved that the remarks of Messrs. Nank and Thomas Read relative to the primary bill and the Governor's veto thereof be spread upon the journal.

The motion prevailed.

Following are the remarks made by Mr. Nank:

Mr. Speaker and Gentlemen of the House: It is needless for me at this time to discuss the merits or demerits of this primary bill. It was introduced in the early part of the session, and the Committee on Elections gave it thorough consideration and reported it out favorably, and it was passed by this House without a vote registered against it. The Governor in his veto message pictures, in the flowery language which he is well capable of using, what seem to him objections to the bill. He refers to the Legislature of 1913, and says that this is a step backward. I do not agree with him. Those of you who were here in 1913 know that we had just a bare majority of Republicans in this House. The primary bill that originated in that House, called the fusion measure, and which the Representatives attempted to pass, and which had the Governor's endorsement, was re-referred to the Committee on Elections and there sleeps the eternal sleep. The bill that was passed in 1913 originated in the Senate, and is not such a bill as Republicans of the State of Michigan would ever endorse. When I defended the bill now before you on the floor of this House I spoke to you as a Republican and told you that it was a Republican and partisan measure.

The Governor referred to the bill in his veto message as being unfair to a minority party. I ask what right have the members of any party to make nominations for any party other than that with which they affiliate? That is exactly what is being done in this bill. I believe it is fair and Republican and I solicit your support.

Following are the remarks made by Mr. Thomas Read:

The Governor has sent in a message vetoing the primary bill and has challenged us to pass it. We accept the challenge, and I am ready to defend the proposition which we are about to pass over the Governor's veto. I shall take up the bill, which I am not ashamed to defend, and point out some of the criticisms which the Governor has made. The Governor says if this bill becomes a law it will encourage cowardice, but he says nothing about duplicity, nothing about the man who takes a blanket ballot and votes for Republican candidates at the primary and at the election votes the Democratic ticket. Certain papers of this State have condemned this bill. This bill will prevent vote swapping. After all is said and done a primary election is nothing more than a party caucus. It does not destroy secrecy of the ballot. It simply makes those who are voting declare their party. The secrecy of voting is guarded as zealously as at any general election.

The Governor attacked the provision of the bill which requires five per cent of the votes cast by an existing party whose name does not appear on the ballot, and why should it not be so? If a man hasn't votes enough to secure his name printed upon the ballot that is a very strong argument that there is something irregular in getting his name on the ballot. That is a very strong feature and one for which I do not apologize.

The Governor also says that it condemns political freedom, and as I said, puts a premium on cowardice. It does not condemn political freedom, but it makes it possible for a Democrat to be a Democrat and a Republican to be a Republican, but it does not allow the weak party to make the nominations and at the general election turn around and defeat their nominees.

This bill should have been signed or vetoed before we adjourned and we should not have been put to the expense of coming back again. The Governor suited his own convenience in this matter, and, as you know, if the bill had not been vetoed at this time it would not have become a law, and it should have been signed or vetoed while we were here. The whole matter, I think, should go on record—our attitude toward the Governor and the Governor's attitude toward us. In the matter of his veto of the Clerk of the House and Secretary of the Senate bill he condemned it as incurring too much expense—in fact that they were jobs where the officers had nothing to do. Now the Tax Commissioners' salaries were raised a thousand dollars, and as the present incumbents could not receive an increase of salary they immediately resigned and the Governor reappointed them, and many think it was technically receiving an increase of salary. Now, gentlemen, I think this bill needs no apology. We do not come back in the spirit of vengeance, we come back here in the interest of fair play, in the interests of the people of the State of Michigan. I will go one step further than my friend Nank, who claims that this bill is a Republican measure. I claim that it is in the interests of all parties of the State of Michigan—that the members may stick to their own party at the caucus. I think, gentlemen, with this statement I am not afraid to go on record as voting to pass this measure over the Governor's veto.

Mr. Flowers moved to take from the table

House bill No. 363 (file No. 141), entitled

A bill to amend section 6 of chapter 28 of Act No. 183 of the Public Acts of 1897, approved May 29, 1897, being an act entitled "An act to provide for the appointment and to fix the term of office, duties and compensation of circuit court stenographers in the State of Michigan," being compiler's section 368 of the Compiled Laws of 1897.

The motion prevailed.

The question being on the passage of the bill, the objections of the Governor to the contrary notwithstanding,

The bill was then not passed, two-thirds of all the members-elect not voting therefor, by yeas and nays, as follows:

As a matter of personal privilege, Mr. Griggs stated that he was unavoidably detained from being present at the roll call on the passage of House bill No. 112 (file No. 25), the so-called Nank primary election bill, but that had he been present he would have voted "yea" on the passage of the bill.
